POST-SURGERY LYMPHATIC

Delicate but firm treatment that aids in smoothing out scar tissues and congested tissue from post-surgery. Manually improves lymphatic circulation limited by post-surgery muscles.

Several sessions recommended for best results

MUSCLE RECOVERY TREATMENT

Hand massage integrated with infrared light therapy and Therabody compression boots for ultimate muscle recovery. Beneficial for those that undergo intense body training to reduce muscle soreness and fatigue, as well as for decreasing swelling and stiffness from poor circulation after long hours of standing. TENS unit therapy, cupping and Gua Sha techniques also applied based on client needs
